

NOTICE TO ALL RESIDENTS

Please be advised that Hoskins Restoration Services (Ottawa) will be performing sealant replacement on the building exterior at 180 York Street starting Monday July 27th, 2015 – October 2nd, 2015 (weather permitting) between the hours of 7:30am -5:00pm. The work will begin on the North Elevation (York Street) moving around the building towards the West Elevation (Cumberland Street). Residents will be advised at least 24 hours prior to work commencing on their affected balcony drop and sheer wall.

What we **require** from the resident of the effected **balcony drop** and **sheer wall drop**:

- Windows of the affected sheer wall drop must remain closed at all times between the hours of 7:30am – 5:00pm. This will prevent the window from breaking as we climb up and down the sheer wall with the swing stage.

What we **recommend** from the residents:

- Remove all personal belonging near the windows and patio door, to ensure that they are not damaged as well as to allow our workers to have a safe working area. Window air conditioners may remain in the window.

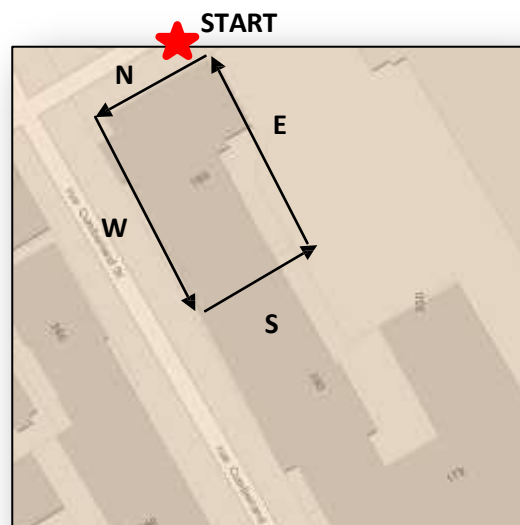

Definitions

- **Balcony Drop:** Workers will access your balcony from a swing stage.
- **Sheer Wall Drop:** The walls where bedroom windows are located. Workers will access the walls containing bedroom windows using a swing stage.
